Another Multi-tenant Unit Goes Wireless with DC Access!

Washington, DC, April 23, 2007 – DC Access announced, in cooperation with Yarmouth Management, the deployment of a new wireless multi-tenant building at 231 15th Street SE. The building owned by Intrepid Partners, LLC, is managed by Yarmouth Management, which manages several other DC Access wireless buildings.

The new wireless deployment will allow residents of the building to access the Internet using their existing laptops or desktops. Additionally, 231 15th Street SE will serve as a small distribution point for DC Access expanding coverage to the East and South of the building.

ABOUT DC ACCESS, LLC

Founded in 1999, DC Access is Washington's DC first and only wireless Internet service provider (WISP). The company also offers dial-up access and web hosting. DC Access' customers receive the benefits of high-speed broadband without having to order DSL or cable from a large provider. DC Access has earned a reputation for offering reliable, affordable and personal service to its customers. DC Access has been profitable from the first day of operation. The DC Access strategy has always been consistent and steady growth. DC Access is privately held and headquartered on Capitol Hill in Washington, DC. For more information on DC Access, please visit <http://www.dcaccess.net/>.
