

Installation Authorization for Condominium

_____, being the manager or board president of the property located at _____, hereby agrees to allow DC Access installers to install Internet services at the above stated address. I understand a hole may be drilled in the wall where the Internet outlet is to be located. I also understand that this installation may require a receiver being mounted on the roof of the building strapped to a chimney or a vent pipe or mounted to a non-penetrating sled mount. Once service is cancelled, DC Access will retrieve the installed equipment, as it is property of DC Access.

This installation is being made at the request of _____, the owner(s) of the property. The owner(s) is solely responsible for any costs associated with the installation. I hereby swear that I am the Board / Property Management representative of the above mentioned property and have legal right to grant permission for this installation by providing my signature below.

X _____

Signature of Board President / Property Manager

X _____

Signature of Condo Owner
